Shape that Lasts as Long as Your Clothes

"THAT suit always looks well on him." That's what you want men of judgment to think when they see you. Every day dressiness week in and week out, depends mostly on lasting shape on your clothes.

Shape is as much a part of Clothcraft Clothes as the cloth itself. It's sewed and held in every stitch—it's tailored in to stay. It does not depend on pressing. Pressing alone gives shape, but will not hold it. To last, shape must be in these clothes before the iron touches them.

This is only one of the points covered in the Clothcraft guarantee that makes these clothes such wonderful values at \$10 to \$25.

When are you going to give us a chance to show you these insured clothes?

Made and guaranteed to hold its shape and good looks—the Clothcraft Blue Stage Special No. 410 at \$150

SOMETHING IS WRONG

Department of Commerce statistics show, says William N. Taft in January Technical World Magazine, that it costs eight times as much to deliver a pound of coffee from a country grocery store to a home a mile away as it costs to bring that same pound of coffee from Rio de Janeiro to New York.

Also it costs the farmer who lives ten miles from the railroad over which he ships his products, one and one sixth cents more to haul a bushel of wheat to the freight station than it costs the buyer to ship that wheat from New York to Liverpool.

Is it any wonder that the price of cotton, and coffee remains at a high level instead of falling proportionately to the increase in production?

Something must be wrong.

Something is wrong.

It is the roads!

Few persons realize the immense tax put on all of us by the bad roads and by the difficulties which they entail.

True as Gospel! And yet, when the General Assembly of Kentucky meets, and it is proposed to provide State aid for the building of good roads in every county, for the joint benefit of the farmer, the ultimate consumer, the tax payer in short, of every resident of the State, solemn-visaged statesmen will rise up to announce their opposition "because the State can't afford it."

Kentucky wasted \$2,000,000 on bad roads last year. For \$2,500,000 and with convict labor from five to ten miles of perfectly-constructed roads could be built in every county of the State next year. At the end of ten years, Kentucky would have worked out its road problem.

The sum of \$5,000,000 is all that stands between Kentucky and a State-wide system of good roads at the end of ten years. If it is not expended, Kentucky by that time will have wasted \$20,000,000 with nothing to show for it, but worse roads than the State has now.

It is not a question whether Kentucky can or cannot afford to grant State aid. It is a certainty that she cannot afford to withhold it. —Louisville Times.

SCOREONE FOR WOMAN

"Jemima Jane," the husband said, "we go this eve to dine with Jones; now, wear a sane hat on your head and decent rags upon your bones. You're going in for modern styles and think it wisdom, I suppose; and you are spending piles and piles of hard earned rocks I bughouseclothes. I do not kick at the expense, but when you go abroad with me I want your dress to show some sense—I care not what the fashions be."

"In olden days, when I was young, the women dressed with sense and taste; no matron on her person flung a dippy skirt or silly waist. The women tried to hide their limbs and modestly they decked their frames; the memory my eye bedims when I looked round on modern dames. So don't array yourself, as those, in things that make the people stare; remember what your mother wore and something modest like it wear."

Jemima Jane, in sore distress, went up to make the needed change. She had a brand new modern dress, but since her husband placed a ban on all these she wished to wear, the new dress was an also ran, and so Jemima tore her hair. Her eve fell on an ancient trunk. Jemima cried, "That's what I'll do! I'll wear a lot of mother's junk, that's not been worn since '82."

She togged herself from end to end in garments of the grand old days. She wore a stately Greek head and monumental whale bone stays the sleeves were tight, the waist was flat, with foolish ribbons here and there. She wore a dinky little hat and knotted net upon her hair. And from the waistline to the floor the dress was large enough to hold two dozen shapely limbs or more—but only two did it infold.

Then she burst on her husband's gaze and he invincible no signs of bliss, but widely cried, in his amaze, "Great Scott! what dog gone freak is this? Can this be you, Jemima Jane, the woman that I made my bride, or has the weather soured my brain and made me draft and grey-eyed? Can this

To Enter Kentucky Mine To Try and Persuade Hendrickson and Companions To Surrender.

Pineville, Ky.—Rain and intense cold kept the guards in misery. Several unsuccessful attempts to escape have been made by the barricaded desperadoes. Happy Jack Hendrickson's wife was interviewed by members of the posse, and upon being told that a barrel of sulphur would be burned at the main entrance of the mine unless a surrender was made, promised the officers that if they would not start smoking them out that she would go into the mine and try to persuade her husband and his companions to surrender.

FIRE DOES GREAT DAMAGE.

Montreal, Quebec—Fire destroyed the entire plant of the Auto Garage Co. and five adjoining stores, and for a time threatened the entire district adjacent. The damage has been set at \$225,000, but will probably greatly exceed that figure. Two men were injured in an explosion of hundreds of gallons of gasoline in the big garage. Fearing another and more serious explosion the police cleared the neighborhood of the inhabitants. Sixty automobiles stored in the garage were destroyed.

TUNNEL DUG BY CRACKSMEN.

San Francisco—Cracksmen tunneled 150 feet and pierced the concrete walls of the First National Bank of Oroville vault. They obtained \$3,700 in silver, but were unable to blow the steel coin safe, in which was stored a much larger amount of gold and currency. The base from which the robbers worked was the cellar of a building occupied at night, and they had ample time to dig their tunnel.

SWALLOW IT QUICK

Impatient people water their miseries and hoe up their comforts; sorrows are visitors that come without invitation, but complaining minds sends a wagon to bring troubles in. Many people are born crying, live complaining and die disappointed; they chew the bitter pill which they would not even know to be bitter if they had the sense to swallow it whole in a cup of patience and water.

COULD SCARCELY WALK ABOUT

And For Three Summers Mrs. Vincent Was Unable to Attend to Any of Her Housework.

Pleasant Hill, N. C.—"I suffered for three summers," writes Mrs. Walter Vincent, of this town, "and the third and last time, was my worst."

I had dreadful nervous headaches and prostration, and was scarcely able to walk about. Could not do any of my housework.

I also had dreadful pains in my back and sides and when one of those weak, sinking spells would come on me, I would have to give up and lie down, until it wore off.

I was certainly in a dreadful state of health, when I finally decided to try Cardui, the woman's tonic, and I firmly

believe I would have died if I hadn't taken it.

After I began taking Cardui, I was greatly helped, and all three bottles relieved me entirely.

I fattened up, and grew so much stronger in three months, I felt like another person altogether."

Cardui is purely vegetable and gentleacting. Its ingredients have a mild, tonic effect, on the womanly constitution.

Cardui makes for increased strength, improves the appetite, tones up the nervous system, and helps to make pale, sallow cheeks, fresh and rosy.

Cardui has helped more than a million weak women, during the past 50 years. It will surely do for you, what it has done for them. Try Cardui today.
